Are you looking for safe, high-quality general contractors to work with? Then look no further!

Join us for one or both of ABC's "Meet the Generals". This **members-only** event is designed to provide a personal introduction to major Northern and Central California general contractors to discuss what projects they have coming up and what they are looking for in a sub-contractor. This is a perfect format to exchange relevant business information and establish a foundation for future business relationships!

Register online at www.abcggc.org/calendar or use the registration form on the back of this flier.

How it works:

General contractors will meet face-to-face with member subcontractors to ask questions and share their upcoming projects and pre-qualification requirements.

Subcontractors will be given the opportunity to ask questions of the general, talk about projects and share information about their company. This format will allow members to learn more about each other, the work they do and provide a direct line of communication for future work collaboration. This program will help members develop more business for their companies, as well as further the basis of the merit shop philosophy: the more quality bids you receive on a job, a lower cost and higher quality product will result.

Participating General Contractors (varies by location)...
