The Basics

Have you just been awarded your first public works contract and feel confused and overwhelmed, or are you just thinking about getting into public works? Have you lost your right hand office administrator and don't know where to send what form? What's a DAS 140, DAS 142, CAC-2, PW CPR, LCP... What's the difference between a single asterisk and a double asterisk wage determination? Are you taking the correct credit for your employee benefit programs? Are your employee benefit programs in compliance with the state "Annualization" rules?

Compliance on a prevailing wage job is more than just paying the correct wages and getting the job done safely and on time. It all starts with figuring out which is the correct wage determination to use, based on when the contract was first advertised for bid.

Who should attend: Business owners, any employee responsible for compliance on public works projects, or anyone just getting back into public works. Compliance is now monitored from several different entities.

Ignorance of the law is no excuse!
